

This is an article from SATURDAY JANUARY, 21 2012 from the Vancouver Sun it is called Battle for sovereignty of the Arctic may be fought in scientific journals. It connects to the unit because it says in the article that there are struggles between Canada, Russia, the U.S., Norway and Denmark. From scientific evidence compiled from decades of mapping and analyzing the Arctic sea floor. The struggle of this is that the pipeline can cause oil spills on the way. From the oil spills it kills most of the water wildlife.
